CORE COMPETENCIES

- System Architecture & Database Design
- Laravel & PHP Development
- MySQL Query Optimization
- Role-Based Access Control (RBAC)
- Educational Management Systems (EMS/LMS)
- REST API Development
- JavaScript, jQuery & AJAX
- Performance Tuning & Debugging
- UI/UX Workflow Design
- Server Deployment & Troubleshooting
- Full-Stack Web Development

STRENGTH

- Strong systems-thinking mindset with experience designing scalable and maintainable software architectures.
- Skilled in root-cause analysis, performance optimization, and solving complex technical problems across application, database, and server layers.
- Product-oriented developer focused on improving user experience, workflow efficiency, and business requirements.
- Full-stack development experience with Laravel, MySQL, JavaScript/jQuery, database design, server management, and UI/UX implementation.
- Domain expertise in Education Management Systems (EMS/LMS), including examinations, academic workflows, student management, and role-based access control.

SKILLS

Language : PHP, HTML, CSS, JavaScript
Framework : Laravel, Bootstrap, jQuery
Tools: git, Docker, Azure
AI: ChatGPT, DeepSeek, Windsurf, Claude
and relevant softwares

EDUCATION

Bachelor's Degree | 2017-2022

American International University - Bangladesh
Computer Science and Engineering (CSE) **CGPA:** 3.29

Higher Secondary Certificate - 2017

Govt. Ananda Mohan College, Mymensingh
Group: Science. **GPA:** 4.67

Secondary School Certificate - 2015

Mymensingh Zilla School
Group: Science. **GPA:** 5.00

PERSONAL DATA

Date of birth: 28 august 1999
Blood group: O+ **Religion:** Islam
Permanent Address: 17/6 DN Charaborty road, Jubilee Ghat, Mymensingh

CAREER SUMMARY

Results-driven Software Engineer with hands-on experience in full-stack web development, scalable system design, and Education Management Systems (EMS/LMS). Proficient in Laravel, MySQL, JavaScript, and jQuery, with expertise in database architecture, workflow optimization, role-based access control, and performance tuning. Adept at collaborating with cross-functional teams to deliver maintainable, user-centric solutions that align with business objectives.

PROFETIONAL EXPERIENCE

Junior Software Engineer

JABA (Japan Bangladesh) IT Ltd. | January, 2023 - present

JABA (Japan Bangladesh) IT Ltd. is a subsidiary of the Japanese-based ITA Inc. It could serve as the interface for an IT link connecting Bangladesh and Japan. I spent two months working on a Japanese initiative that manages 400 schools around Japan. I am currently a part of the development team working on an integrated education management system with LMS based on the Japanese project.

Junior Software Engineer

Freelance IT Lab | Aug, 2022 - Dec, 2022

I entered this organization as a trainee with three months of provisional time. After those three months, I began working for the firm on a regular basis. The following is a list of my duties:

- Work together with designers to develop streamlined user interfaces and clear, understandable interactions and experiences.
- Create ideas for Laravel projects and keep a smooth workflow.
- Manage extensive, complicated design projects for corporate customers in collaboration with a senior developer.
- Perform quality control checks to enhance usability.

THESIS

Smart Scientific Book Using Augmented Reality

Worked with a team of four members, the purpose is to propose a solution which is creating an Augmented Reality-based study tool that will be accessible to board examinees. Animation or 3D model can serve the purpose of visual studying. Real-virtual combination, real-time interaction and 3D display can help to get hold of a lesson better as students will also be able to interact with the models.

PROJECTS

Integrated Education Management System (IEMS)

Comprehensive education management platform that streamlines academic, administrative, financial, HR, and institutional operations through a centralized system.

Learning Management System (LMS)

A scalable learning platform for managing digital courses, AI-powered question banks, assessments, live classes, examinations, and student performance analytics.

Online Admission System

A digital admission platform that automates the entire enrollment process, including online applications, document verification, merit list generation, and admission management.

INTERNSHIP

Robi Axiata Limited

On 17th January 2022, I began a three-month internship for the project "E-Approval project" within the IT division.

PEOPLE CAN MAKE YOU PUSH BACK, BUT HARD EFFORT WON'T
